AFRINIC and Internet Society in collaboration with France Telecom – Orange will organise a webinar on IPv6 deployment on 15 October from 13:00 to 15:00 UTC, targeting Internet operators and service providers as well as the Francophone community in Africa.

This French webinar aims to sensitise operators and IP service providers on IPv6 adoption which is key to securing Internet's future.

This conference will help African Internet operators in defining and in setting up their IPv6 migration strategy through experience sharing in engineering and operational best practices.

The agenda:

13:00 - 13:05 Welcome introduction and agenda review (AFRINIC)

13:05 - 13:30 IPv6 deployment status and IPv6 World Launch statistics (A. Cardinal, AfriNIC)

13:30 - 13:45 France Telecom Orange's IPv6 strategy (C. Jacquenet, FT/Orange)

13:45 - 14:00 Sonatel's IPv6 experience (M. Sall, Sonatel)

14:00 - 14:30 Q&A

Who attends this conference?

This webinar targets primarily operators and other stakeholders interested in IPv6 deployment in the African region.
