ORGANISERS

Taking Africa Internet Development to the Next Level Through Policy, Collaboration and Education.

The essence of Africa Internet Summit (AIS)

The Africa Internet Summit (AIS) is an annual, regional, multi-stakeholder ICT conference. It is the pinnacle educational and business ICT event in Africa where key players in the Internet industry can interact with the global Internet community. Launched in The Gambia in 2012, the Summit involves seminars, workshops, tutorials, conference sessions, birds-of-a-feather (BOFs), and other forums for sharing ICT knowledge within the African region.

The Summit brings the ICT business and technical community in Africa together under one roof to

discuss ICT issues and challenges. They provide a platform for all African governments and global stakeholders to discuss and benchmark issues regarding Internet policy, Internet governance, Information Communication Technology for Development (ICT4D), Internet access and technical capacity building to gather to discuss, collaborate, learn and disseminate information about these key areas of Africa's Internet development.

VENUE

Kinshasa, DR Congo

AIS'20 will be held in Kinshasa, the capital and the largest city in the Democratic Republic of the Congo. The city is situated alongside the Congo River.

DRC is endowed with awesome tropical rainforests stretching to the borders of Rwanda and Uganda, scenic volcanic mountains shared with Rwanda, mineral-rich regions such as Katanga, and the lower Congo River basin that sustains wildlife in the country. The people are friendly and outgoing. Delegates should look forward to enjoying themselves in this beautiful and wonderful country.

What are the Topics of Discussion?

AIS'20 will provide a platform for delegates to deliberate and address the following key questions:

- What strategies can be used to drive IPv6 Deployment throughout Africa?
- How can we improve and expand Internet infrastructure to ensure low cost, resilient and secure Internet access and keep our content and traffic local?
- How do we provide affordable, always-on Internet access to all Africans to ensure they reach their full potential?
- What are the policies guiding Internet number resource distribution in Africa?
- How do we ensure that all stakeholders participate in the policy development process (PDP)?
- How can we keep our networks safe from cyberattacks, DDoSs and shutdowns?
- How can we harness the power of the Internet to help end poverty and ensure prosperity for all?

Participation

Diversity and inclusion is our strength.

The event will bring together top executives from Internet Corporation for Assigned Names and Numbers (ICANN), Internet Society, African Network Operators Group (AfNOG), among others. Renowned speakers and experts will attend to offer perspectives, presentations and participate in panel discussions on latest developments and case studies in e-infrastructures, applications, research, entrepreneurship and more. The event is open to over 1,700 AFRINIC members from the African region as well as our global stakeholders and partners. DRC's top leadership has been invited to grace and participate in the event.

Why Sponsor?

Africa is progressing towards greater connectivity. The future depends on how AFRINIC, alongside key stakeholders such as governments, regulators, network operators, academia and business leaders, harness the opportunities provided by accessible and efficient Internet connectivity.

AIS'20 will provide a unique opportunity for your organisation to share and showcase your vision for this aspiration as well as open multiple business opportunities brought by a global audience attending the event.

Specifically, sponsoring AIS'20 will provide your company with an excellent opportunity to:

- Create, maintain and enhance brand awareness among high-profile relevant audiences
- Build and reinforce strategic relationships with key players in the ICT sector across the globe
- Network and generate new leads and returns on investment
- Access a broad network of leaders and decision-makers
- Intellectually influence industry peers

Sponsorship Opportunities

There are three main sponsorship categories for AIS'20.

Content Sponsorship

This is the most prestigious category for the event. It involves speaking, participating in plenary sessions and discussions.

Networking Sponsorship

This category revolves around social events at AIS'20 which form an integral part of the event programme.

In-Kind Sponsorship

This is the more personalised category that is tailor-made to sponsor specifications.
