

**Dr. Janvier NGNOULAYE**

**April 17, 2020.**

**To the Chair of 2020 Nomcom  
of AFRINIC, Mark Elkins, [mje@posix.co.za](mailto:mje@posix.co.za)**

**Subject: *Candidate resume, apply to the NRO NC/ASO AC position***

I have 21 years of experiences in ICT. I've worked in the ICT industry since 1997. I have a Master Degree in Computer Science from the University of Yaounde 1 and a Ph.D degree in educational technology from the University of Montreal. I hold various instructor certificates (on Linux and Cisco).

I was a Board member of AFRINIC from 2011 to 2014, where I was part of the Audit and the By-laws committees with various valuable contributions. I am an active and regular member of Afrinic since 2011 with two AS numbers, and currently with the WHOIS NIC: ORG-CIEP1-AFRINIC.

I have been a member of the Afrinic RPD mailing list since 2011 where I have often contributed at its public discussions and also in the mailing list on some policies under discussion.

In 2014, I joined the Working Group on Data & Metrics for Policy Making of ICANN, <https://www.icann.org/public-comments/data-metrics-policy-making-2015-07-29-en>, where we worked to explore opportunities to review standard methodologies of reporting and metrics that could better inform fact-based policy development and decision making; including how the community can collaborate with Contracted Parties and other service providers in the sharing of metrics and data.

In 2015, I have been appointed to replace Mr. Alan Barrett on the CRISP team (consequent to Alan Barrett's appointment as the AFRINIC Chief Executive Officer). <https://www.nro.net/mr-janvier-ngnoulaye-appointed-on-the-crisp-team/> With the CRISP team, I also brought valuable contribution as we had have been responsible for developing a consolidated proposal on behalf of the Internet numbering community.

Dear Chairman, I think I can be a suitable candidate of the Afrinic ASO/NRO open position.

***Sincerely,***

***Dr. Janvier NGNOULAYE***
